CHENGTUO TECHNOLOGY
Technology and Service for people

TX24-5A

Intelligent Power Supply Unit

1 Feature and Benefits

- EN54-4 Compliance
- Intelligent PSU
- Wall mount, networkable
- Digital display showing output voltage and load current
- Overload, overcharge and over usage protection
- Fully Monitored with Self-test function

2 Technical Specification

- Output Power: 120W (24VDC/5A)

- Operating Environment: Temperature: -10℃~+60℃

       Relative Humidity: ≤95%, non-condensing

       Atmosphere: 86~106KPa

- Power Supply: Mains: AC220V(110-240V),50/60Hz, ＜130W

       Backup: 24VDC/12Ah sealed lead-acid battery

       (Not included)

- Dimension: 400mm x 320mm x 120mm

- IP Grade: IP30

- Mains and backup switching time: No delay.
