

FM200 Cylinder

1 Overview

FM200 cylinders are supplied by professional cylinders manufacturing enterprises with Class I, Class II, and Class III Certificate of pressure vessels and B2 (1) level qualifications. The main products are tower container, heat exchanger, storage tank, pressure sterilizer, Class I, Class II, and Class III of pressure vessel, nitrogen cylinders, suspension (powder) welding cylinder, methyl bromide cylinders, liquid ammonia, chlorine and other various kinds of welding cylinder.

2 Technical Parameter

Model	Nominal volume (L)	Nominal diameter (mm)	Height (mm)	Weight (Kg)	Nominal pressure	Hydrostatic test	Agent Type	Material
FMP-40	40	Ø300	~736±10	41	4.2MPa	6.3MPa	HFC-227ea	HP345/Q345R
FMP-70	70	Ø350	~895±10	58				
FMP-90	90	Ø350	~1095±10	69				
FMP-120	120	Ø350	~1415±10	85				
FMP-150	150	Ø400	~1467±10	105				
FMP-180	180	Ø400	~1607±10	122
