

A One-way Valve

QYD/17.2

1 Overview

A one-way valve of a flow pipe of a fire extinguishing agent is arranged between the collecting pipe and the metal hose for controlling fire extinguishing one way flow of the agent, from the metal hose to the flow tube.

2 Technical Parameter

Model	Nominal working pressure	Nominal diameter	Outlet thread	Inlet thread sealing method	Open pressure
QYD16/17.2	17.2Mpa	16mm	R1"	M27*1.5 Taper seal	0.1MPa
QYD32/5.3	5.3MPa	32mm	Rc1¼"	M48*2 Taper seal	0.1MPa
QYD40/5.3	5.3MPa	40mm	Rc1½"	M60*2 Plane seal	0.1MPa
